

## Completing a Simple Search

Searching for a specific publication is made easy using the NavigatorV® Search page.

**Step 1: Double-click a book to view the publications available. Then, click a checkbox to select the put you want to search.**

**Step 2: Click Search.**

## Narrowing Down Your Search Results

You can narrow down your search results by using search criteria.

**Step 1: Do the same as Step 1 above and double-click a book to view the publications available. Then, checkbox to select the publication(s) you want to search.**

**Step 2: Enter your search criteria. You can enter any combination of the following:**

- Select a manufacturer name and a model name/number from the **Manufacturer** and **Model** drop-down
- In the **Enter keyword or phrase** field, type in a keyword, phrase, or search expression. Click the See a search options link for information on how to form advanced search expressions.
- To limit the search to a specific date range, uncheck **All Dates** and enter the lower and upper date limit
